

Erratum

In the article 'The next generation: Pregnancy in adolescents and women living with perinatally acquired HIV in South Africa' by Anderson *et al.*, which appeared on pp. 260 - 264 of the March 2021 issue of *SAMJ*, there were errors in the 'Results' section on pp. 261 - 262. The sentence starting at the bottom of the right-hand column on p. 261 should have read 'Age at the start of pregnancy ranged from 10 to **25** years (Fig. 2); **38.8%** of pregnancies occurred in those aged ≤ 16 years, **39.1%** at 17 - 19 years of age, while **22.1%** were in adults ≥ 20 years old,' and not 'Age at the start of pregnancy ranged from 10 to **24** years (Fig. 2); **46.1%** of pregnancies occurred in those aged ≤ 16 years, **32.6%** at 17 - 19 years of age, while **21.3%** were in adults ≥ 20 years old.' The results are stated correctly in the abstract and are shown correctly in Figs 1 and 2.

The online version of the article (<https://doi.org/10.7196/SAMJ.2021.v111i3.14987>) was corrected on 7 March 2022.
